

CATHRYN BANG + PARTNERS

Jihyon Kim

Senior Technical Architect

Jihyon Kim has a proven history of leadership abilities in delivering wide range of facilities projects from civic, educational, and health-care. He has developed a consistent vision and approach to quality design concepts as it pertains to producing deliverables. Over 20 years, Jihyon has been responsible for the production of detailed design and coordination of construction documents, agency relations, and construction administration. His in-depth knowledge of codes/regulations and the development of new technical systems enable Jihyon to execute the most challenging projects. His approach is a finished product that reinforces the original design concept that meets the clients needs.

Jihyon has played a key role in the development of notable projects, maintaining quality, budget, schedules and operational goals. He will bring a thorough knowledge of successful project development processes, quality practice and value-based decision making to projects. Jihyon's knowledge and experience will form the foundation upon which design excellence will grow.

Professional Recognition:

Jihyon's career has been notable for the recognition he has received for work particularly on many prestigious, large and complex facilities projects. Of special note, Jihyon was an Adjunct Assistant Professor at Columbia University Graduate School of Architecture.

Project Experience

[HEALTHCARE]

Skirball Institute of New York University Medical Center, Manhattan, New York
